

STYLE

= WINEMAKERS INTENTION

Quality is determined in the vineyard, **style** in the winery

Acid	Is it a fresh, crisp, zesty, high acid...style?
Tannin	Is it a firm, robust, tannic...style?
Texture	Is it a rich, rounded, smooth...style?
Style in general	Is it a modern, traditional, classic, natural..style?
Oak	Is it an oaky, unoaked...style?
Other	Is it is a fruity, terroir, age-worthy, drink-now...style?

“Style” is what the wine maker intended and achieved through their decisions on fruit handling, ferment, pressing, maturation, bottle age etc.

It is what makes one winemakers wine different to their neighbours.

Any word or phrase that you can add the word “style” to (as above) is appropriate for a style note.

Do not fall into the trap of using fruit and flavour descriptors or quality vocabulary in style notes.
